

Community Asset Mapping Survey of La Plata County's Nonprofit Organizations

The Sustainability Alliance of Southwest Colorado, with partner organizations, invites you to complete this survey, highlighting your nonprofit organization's assets. The information gathered will be compiled in a comprehensive guide that will be used as a vital community resource. Part of a larger Community Asset Mapping initiative, the objective is a proactive approach to community development which identifies assets rather than a reactive approach that merely responds to needs.

The Sustainability Alliance is a 501(c) (3) nonprofit organization with a mission to promote the sustainability movement in Southwest Colorado by facilitating communication and collaboration among individuals and organizations, with a primary focus in La Plata County.

Complete, holistic answers to survey questions will be most beneficial to the community. Questions on completing this survey, as well as future updates to information that you submit, can be sent to info@sustainableSWcolorado.org.

YOUR ORGANIZATION:

Contact Information

Name of Organization:

Office/Mailing Address:

Website Address:

E-mail Address:
